S'pore Indian chamber delegation visits Beximco Pharma plant in Tongi

Exploring business opportunities in pharmaceutical sector, visiting high-profile business delegation of Singapore Indian Chamber of Commerce and Industry (SICCI) visited the state-of-the-art pharmaceutical plant of Beximco in Tongi, Gazipur yesterday evening (August 07, 2006).

Mr. Nazmul Hassan, Chief Executive Officer of Beximco Pharmaceuticals Limited, welcomed the delegation led by Mr. M Rajaram and briefed them on the different production lines of the plant.

Presenting a multimedia presentation Mr. Hassan informed the delegation that Beximco Pharma is the only company in Bangladesh that has been exporting drugs to Singapore for last ten years.

The delegation showed special interest for the company's high-tech specialised products like inhalers, nasal sprays, suppositories, injectables and IV fluids (Saline).

Seeing different production lines and installations of Beximco Pharma plant, the SICCI business team highly appreciated the quality control process of this technology-driven company.

They also praised the quality of the products, absolutely sterile environment and minimum human contact in producing drug in the plant.

They visited the state-of-the-art IV Fluid plant, and new USFDA standard Oral Solid Dosage (OSD) plant.

Beximco Pharma, a leading drug manufacturer and the largest pharmaceutical exporter in Bangladesh, provides technical know-how to its importers and also offers contract manufacturing facilities to the multinational companies.

So far, Beximco Pharma has registered 24 products with the Health Science Authority of Singapore. The company has supplied drugs to renowned hospitals of Singapore like KK Women & Children Hospital, Raffles Hospital and Healthway Medical Group having an extensive network of about 30 clinics, serving both the private and corporate level patients in Singapore. Healthway also manages a panel of 260 affiliate general practice clinics and 150 specialist clinics in Singapore and Malaysia.

Beximco Pharma manufactures and markets its own 'branded generics' for almost all diseases from AIDS to cancer, from infection to asthma, from hypertension to diabetes, for both national and international markets. Besides, Beximco Pharma contract manufactures for major international brands of leading multinational companies.

Besides Singapore, Beximco Pharma has export activities in Russia, Ukraine, Georgia, Iran, Pakistan, Kenya, Mozambique, Malaysia, Hong Kong, Taiwan, Thailand, South Korea, Philippines, Cambodia, Vietnam, Myanmar, Yemen, Sri Lanka, Nepal and Bhutan.
