UAE investors visit Beximco Pharma plant

The visiting high-profile business delegation from the United Arab Emirates visited the state-of-the-art pharmaceutical plant of Beximco in Tongi, Gazipur as it seeks business opportunities in pharmaceutical sector.

Beximco Pharmaceuticals Limited Chief Executive Officer Mr. Nazmul Hassan welcomed the delegation led by Mr. Khalifa Mohamed Abdul Aziz Rubaya Al Muhairi, board member, Abu Dhabi Chamber of Commerce and Industries (ADCCI) and made a presentation on the different production lines of the plant.

The high-level trade and economic delegation of Abu Dhabi has embarked on a four-day visit to Bangladesh to explore prospects of joint investment in different sectors including pharmaceuticals.

The delegation showed special interest for the company's high-tech specialised products like inhalers, nasal sprays, suppositories, injectables and IV fluids (Saline).

Seeing different production lines and installations of Beximco Pharma plant, the UAE business team highly appreciated the quality, absolutely sterile environment and minimum human contact in producing drug in the plant.

They visited the state-of-the-art IV Fluid plant, Metered Dose Inhaler (MDI) plant and new USFDA standard Oral Solid Dosage (OSD) plant.

Beximco Pharma, a leading drug manufacturer and the largest pharmaceuticals product exporter in Bangladesh, provides technical know-how to its importers and also offers contract manufacturing to the multinational companies.

The company manufactures and markets its own 'branded generics' for almost all diseases from AIDS to cancer, from infection to asthma, from hypertension to diabetes, for both national and international markets. Besides, Beximco Pharma contract manufactures for major international brands of leading multinational companies.

So far, BPL exported its products to Singapore, Russia, Ukraine, Georgia, Iran, Pakistan, Kenya, Mozambique, Malaysia, Hong Kong, Taiwan, Thailand, South Korea, Philippines, Cambodia, Vietnam, Myanmar, Nepal and Bhutan.
